

The Awakening Prayer: This prayer was given by Ascended Masters Saint Germain and Kuthumi to assist the Cellular Awakening of humanity. It can be said in groups, spoken individually, and used in meditation. This prayer was first introduced to over 200 people at the Global Sciences Congress, in Denver, Colorado, 1990:

Great Light of Divine Wisdom,
Stream forth to my being,
And through your right use
Let me serve mankind and the planet.

Love, from the Heart of God.
Radiate my being with the presence of the Christ
That I walk the path of truth.

Great source of creation.
Empower my being,
my brother,
my sister,
and my planet
with perfection
As we collectively awaken as one cell.

I call forth the Cellular Awakening.
Let wisdom, love, and power stream forth to this cell,
This cell that we all share.

Great spark of creation awaken the Divine Plan of Perfection.
So we may share the ONE perfected cell,
I AM.
