

The Time of Testing

As usual, we received our annual Shamballa Message from Master Saint Germain. The discourse focused on the topic, “The Time Of Testing,” a twenty year period (2,000 to 2,020) that humanity will enter. Prior to this twenty year period, we were in a time period known as “The Time Of Transition.”

“The Time Of Transition” is a twelve year period (1988 to 2,000) where the Beloved Ascended Masters, Archangels and Elohim are flooding the Earth with Light (the Rays) to increase and subsequently evolve our individual spiritual growth. Many people have known and understood this period in humanity’s history as “The Spiritual Awakening.” This twelve year period was very important in the Spiritual Hierarchy’s plan to increase true spiritual awareness among humanity and to demonstrate the “Law of Love in action.” During the twelve year period many of us witnessed the growth of alternative self-help and healing groups and increased interest in alternative forms of spirituality from Native American shamanism to Tibetan Buddhism. Truly, we are united as ONE consciousness and ONE human heart.

Alongside the growth of a United Brotherhood and Sisterhood; Mother Earth began her purification process. Global Warming was the greatest concern with flooding in the midwest of the United States. (Also evidenced in President Bill Clinton’s State Of The Union Address this January.) There were also devastating floods in other areas of the world; Central America and recently in Venezuela. Terrible earthquakes in Japan, Algeria, Turkey and Taiwan, alongside climatic changes producing incredible windstorms in Europe, typhoons in India, freak tornadoes in the United States from Utah to Texas and into Georgia. We also saw freakish winters on the East Coast alongside terrible hurricanes leaving thousands homeless.

These were the events that we expected. Edgar Cayce said it would happen sooner, Nostradamus wove the prophetic events into his quatrains and Hopi Prophets simply uttered, “The Great Purification.” The Spiritual Hierarchy continue to reinforce the teachings of personal choice, the mainstay instruction during “The Time Of Transition” and our ability to alleviate, decrease and possibly circumvent cataclysmic Earth Changes altogether through a change in our collective hearts and minds.

In “The Time Of Testing” the Master Teachers say the opportunity for our spiritual growth and worldwide peace has never been more coincidental. Earth Changes events will continue to escalate alongside our spiritual growth and opportunities to learn and master the lessons in love, harmony

and cooperation. All of the necessary education to lay the foundation for the New Times - The Golden Age! The next twenty years, “The Time Of Testing” will be a time where humanity will understand the nature and the power of personal choice. A wise friend once said, “You are never tested beyond your capability.” The next twenty years will be indeed, very interesting!

Master Saint Germain also reminded us that “making a plan” is very important. The Master Teachers all make a yearly plan at Shamballa, and hopefully fulfill their goals throughout the upcoming year. So make a plan for all of the things you would like to achieve this year. Here are a few tips from a good friend of ours:

1. Make a list of your top six goals.
2. Create an outline of action steps for each goal.
3. Take the realistic actions for each step to achieve your goals.

See your outline as a road-map of your future. This outline is very personal and sacred. Place it in a special place in your home (on your personal altar, etc.) and use decrees and meditation to assist its outcome.
